RISK TRANSFER

Insurance, non-insurance

My insurance claim career spans 44 years, all of which have been spent managing, directly or in a supervisory capacity, commercial and personal lines insurance claims. For the last 29+ years, I have specialized in commercial long-term exposure, or continuous property damage, bodily injury, and personal injury claims on a national basis, primarily, but not exclusively, involving construction defect, environmental, toxic tort, and product liability, and design professional liability claims. I frequently collaborate with underwriting professionals to draft and redraft policy language. My experience also includes construction accident claims, particularly third-party-over actions in New York.

During the first 14+ years of my career, I supervised personal lines claims, both on a primary and umbrella basis, in the State of New Jersey. It was during this time, in the early 1990s, that I qualified as an expert in the evaluation of automobile bodily injury claims in Federal Court. On behalf of the U.S., I testified as an expert in Newark Federal Court in two related automobile insurance fraud prosecutions of a fraud ring that included a physician, three attorneys, and their respective office staffs.

I am a staunch proponent of lifetime professional development as evidenced by my participation in formal programs as well as by my creation and delivery of webinars and workshops.

Workshops/Webinars/Seminars

Created/present “*Cause and Effect: Managing the Construction Defect Claim*”, a multi-part series, conducted via on-site workshops and webinars. Topics included coverage issues such

as the duty to defend, whether faulty workmanship constitutes an occurrence, and whether the consequences are property damage; trigger of coverage, known loss, number of occurrences; allocation; contractual indemnity; additional insured; business risk exclusions; liability, damages, and litigation management.

As an instructor with the Academy of Insurance, I have created/present(ed) the following webinars:

- When Does Property Damage Occur?
- CGL Coverage – Other Insurance and Allocation
- Duty to Defend vs. Duty to Indemnify
- Reconciling Contractual Liability and the Additional Insured: The Devil is Always in the Details
- CGL Coverage – Occurrence and Property Damage
